Raiders From the North (Empire of the Moghul Series Book 1)

Ausgabe **KINDLE**

The first book in the Empire of the Moghul series: chronicling the rise and fall of the Moghul rulers of India, beginning with Babur who swept in from Central Asia to found one of the most powerful dynasties in history.

1494, and the new ruler of Ferghana, twelve-year-old Babur, faces a seemingly impossible challenge. Babur is determined to equal his great ancestor, Tamburlaine, whose conquests stretched from Delhi to the Mediterranean, from wealthy Persia to the wild Volga. But he is dangerously young to inherit a crown and treasonous plots, tribal rivalries, rampaging armies and ruthlessly ambitious enemies will threaten his destiny, his kingdom, even his survival.

Synopsis
The Moghul quintet of historical novels tells the untold story of the rise and fall of one of the most powerful, opulent and glamorous dynasties in history. Spanning two hundred turbulent years and the lives of six very different emperors, the Moghul series will bring to life a people whose skill and bravery on the battlefield would be matched by their love of luxury, their passion for beauty and their unbridled ambition.

For all their brilliance, however, the Moghuls were deeply flawed; with no law of primogeniture, Moghul princes would fight each other and even their fathers for the crown, following their mantra, 'Throne or Coffin!'. Book One will tell the story of the charismatic Babur, warrior and ruler of Ferghana, a kingdom north of Afghanistan. Determined to emulate his warrior ancestors, Babur's hunger for an empire leads him to attempt to re-establish Timur's legacy around the fabled city of Samarkand, accompanied by his loyal army of followers. -- Dieser Text bezieht sich auf eine andere Ausgabe: kindle_edition.
