Renewable Energies for  
Central Asia Countries:  
Economic, Environmental  
and Social Impacts

Edited by  
Aldo Iacomelli

NATO Science Series

IV. Earth and Environmental Sciences – Vol. 59

**Beschreibung:**

Economic, Environmental and Social Impacts (Nato Science Series: IV:)

Ausgabe **KINDLE**

New technologies will play a crucial role in the development of a market of "sustainable energy products" that should grow in a competitive way to stand against the challenge of change. This book suggests learn from Central Asian countries the potentiality of renewable in such areas as an option. The book investigates policy option for new markets for renewable technology, and it tests the economic path for the Kyoto protocol implementation.
