As part of IQRA's new high school program of Islamic education this textbook provides the groundwork for understanding this most important source of Islamic law, ethics and spirituality. An Introduction to Sahih al-Bukhari starts by introducing the basic components of 'Uloom ul-Hadith (the Sciences of Hadith), the biography of Imam al-Bukhari as well as his methodologies and works. The book then produces a number of key ahadith taken from Sahih al-Bukhari along with an explanation of it.
